

Troubleshooting Asphalt Paving

Date: Wednesday May 14, 2025

Time: 8:30 am – 10:45 am

Location: Kingswood Lodge

Cost: Free for students and those attending the NBUPG Annual Seminar

Workshop Overview

What do you do when problems arise during asphalt construction? In this session, we will discuss solutions to common issues during paving. The workshop will be interactive, where participation from the attendants is expected. We will have an expert panel that will offer their insights. Nonetheless, it will be an exchange of good paving practices between all the participants. This event will be hybrid, so those who can not arrive in Fredericton on Wednesday morning or are not planning to join the Golf day can join. If you would like to attend the event online, please register at <https://www.eventbrite.ca/e/troubleshooting-asphalt-paving-workshop-tickets-1243959248599?aff=oddtcreator>

Agenda

8:30 am – Coffee and sweets

9:00 am – Workshop

10:30 am – Questions and Discussion
